## WORK EXPERIENCE

---

### Java Full stack Developer - QSpiders

Apr 2025 - Present

- Completed Java Full Stack training at QSpiders, covering SQL, Core Java, Advanced Java, and Web. Technologies.
- Worked as a Business Growth Analyst at MS Square Technologies, contributing to strategic planning and market analysis to drive business expansion.

## PROJECTS

---

### AI-Driven Crop Price Prediction and Farmer Support

- I created a website that predicts crop prices in various markets using machine learning algorithms like Random Forest, KNN, and Decision Trees, helping farmers make informed decisions based on market trends.
- I added a feature providing details on government schemes and benefits for farmers, ensuring they have easy access to essential support and resources.

### Expense Tracker

- Created user-friendly interface for a robust Python Expense Tracker; improved search speed and retrieval process by 15%, facilitating organized expense tracking and enhancing overall time efficiency in daily financial activities.
- Users can input essential details like date, amount, and description, with an intuitive and user-friendly interface. The tracker includes a 15% faster search and retrieval prprocess.ith these enhancements, managing expenses becomes more organized and time-efficient.

## EDUCATION

---

2021 - 2025	at BRILLIANT GROUP OF INSTITUTIONS	(GPA: 7.00/10.0)
2021	Class 12th TSBIE - TS	(Marks : 84%)
2019	Class 10th SSC-TS	(GPA: 8.8/10)

## SKILLS

---

**Technical:** C, C++, Python, HTML, CSS, SQL, Core Java

**Tools:** VS Code, Google Collab, Microsoft Azure, Figma, Adobe creative suit

## CERTIFICATIONS

---

**Programming in Python-:** The Mastered Python Programming Essentials course offered by Cisco Networking Academy provides comprehensive training on Python

**Programming in Java:** The Mastered Java Programming course offered by Oracle Academy provides in-depth knowledge of Java, covering core concepts of java
